Presentation Characteristic		Excellent (4)	Good (3)	Adequate (2)	Poor (1)	Missing (0)
Content of Data Analysis	Introduction of Data and Problem	Nice introduction to the project. Goal of project and data clearly explained.	Reasonable introduction but goal or description of data may be incomplete.	Some introduction provided, but failed to properly introduce the project or describe the data.	Almost no introduction. Went straight to the data analysis	
	Methods used to answer problem	Methods were appropriate for the research question and were explained in detail	Methods were appropriate but some details regarding their implementation was missing.	Methods were not appropriate but their implementation was presented clearly.	Methods were not appropriate and implementation was not clearly described.	
	Results of analysis	Results are presented clearly and logically; plots/tables are appropriate and clear	Results were conveyed mostly clearly; most plots/tables were appropriate and clear but some improvement could be made	Results were conveyed somewhat clearly; some plots/tables were inappropriate or unclear	Results were not clearly conveyed or were confusing; plots and tables were not clear or were inappropriate or lacking	
	Conclusion to problem based on results	Conclusion made was appropriate for the problem and presented in detail.	Conclusion made was appropriate but could have used more detail in presentation	Conclusion made was appropriate but was lacking in some details, or was not presented in the context of the problem	Conclusion was lacking or extremely minimal; was not presented in context of problem	
Presentation of Data Analysis	Communication of results	Excellent delivery, spoke clearly and precisely; nicely timed	Student spoke clearly but delivery was sometimes rushed or was a bit over-time	Student did not always speak clearly; delivery was rushed and/or presentation was too long	Student was very hard to understand delivery was very poorly paced; presentation was too long	
	Visual Presentation of Results	Slides/visual aids were clear, not crowded, contained relevant information	Slides/visual aids were clear, but contained slightly too much/little information	Slides/visual aids were a bit unclear/disorganized, and/or too much/little information	Slides/visual aids were unclear/disorganized and didn't contain the necessary information
